Temperature & Humidity Dual Sensor with LCD (Modbus/RS485)

The FGD-0082 Temperature & Humidity Dual Sensor with LCD (Modbus/RS485) is an intelligent monitoring module for measuring the temperature and humidity of an indoor environment. The product not only has the characteristics of intuitive display, high precision, low cost, beautiful appearance and convenient installation, but also has the function of self-recovery and self-calibration.

TECH SPECS

Dimensions	86 x 86 x 33 mm
Weight	105 g
Housing	White Plastic
Power Requirement	12 - 24 V DC
Temperature Range	0°C – 50°C (-32°F– 122°F)
Humidity Range	0 – 100% RH
Accuracy	Temperature: ± 0.3°C at 25°C | Humidity: ± 3% RH at 25°C
Temperature Display Unit	Degree Celsius or Degree Fahrenheit
Compatibility	Sentinel Pro & Stratus EMS

All specifications subject to change without notice

Product Name	**Part Number**
Temperature & Humidity Dual Sensor with LCD (Modbus/RS485)	FGD-0082

MADE IN USA

Family owned and made in the USA since 1985
