Sole distributor of Sensaphone Monitoring System in Asia

Sole distributor of Tyco TraceTek Liquid Leakage Detection System in Hong Kong and Macau

South East Asia Sales Leader Award – TraceTek

Appointed by Sensaphone as Sensaphone Asia Office

Products

1. Sensaphone – Remote Monitoring Solution

Sensaphone products are designed to help you monitoring remote facilities. Our range of Sensaphone solutions can instantly inform you when conditions are less than perfect, plus you can check on the status anytime. Sensaphone is the leader in Remote Monitoring with over 25 years in business and over 300,000 installed systems worldwide.

2. TraceTek – Find Leak Before They Find You

With many thousands of installed systems worldwide – from London's iconic new Swiss Re Building to Hong Kong Tamar Central Government Complex - TraceTek polymeric sensing cables and multifunction, multi protocol digital alarm system are the dominant solution to water leaks in high rise buildings.

3. Raychem – The Intelligent Underfloor Heating System

Comfortable is everything, especially at home. With Raychem's smart electrical underfloor heating, you can offer a cosy warm floor, maintenance free, to your family.

4. Raychem – Hot Water Temperature Maintenance System

Today's hot water system requirements focus on users' comfort as well as operational and energy saving. With this in mind, Raychem HWAT System keeps the hot water at the right temperature everywhere in the building while saving energy at the same time.

5. Tyco – Smart Heat for Comfort and Safety

As a world leader in heat-tracing systems, Tyco has the system that you need from pipe-freezing prevention, fluid temperatures control, to snow melting.
